

Sandbanks Summer Village Opens North Side Cottages For Sale

Prince Edward County, Ontario—Cottage Advisors of Canada kicks off the 2012 cottage selling season by releasing for sale the first of round of cottage condominiums on the north side of their 80-acre Sandbanks Summer Village vacation cottage development. There have already been four cottage sales in the first north side cul-de-sac neighborhood released.

After achieving 40 cottage sales last year, and with a Grand Opening scheduled for this May, Cottage Advisors of Canada decided to release the north side cottages early in 2012 to ensure enough inventory would be available for the upcoming cottage selling season.

Their sales success can be attributed to the unique cottage condominium village concept created by Cottage Advisors. Cottage owners can choose among five different two-bedroom cottage floorplans from \$179,900 - \$259,900 (hst included) and then customize their cottage with a range of finishes and upgrades. Owners then enjoy a village filled with maintenance-free amenities, such as pools, sports courts, putting green, playground, entertainment pavilion, private lakefront equipped with kayaks and canoes and paddle boards, and a recreation and entertainment program. Cottage Advisors' vision of an affordable, maintenance-free, and community-oriented vacation village has already seen success with three other cottage communities in North America, selling 550 cottages over the last 6 years. Their current vacation village in Prince Edward County brings their first of its kind cottage condominium concept to Canada.
